

Android Studio Guide Application(Capstone Project)

YUNJE CHANG

Introduction

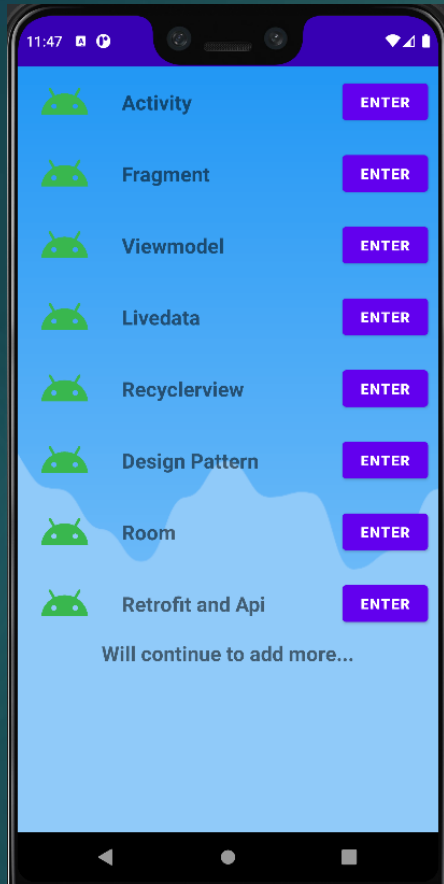

- ▶ In my Capstone Project, I decided to create an Android Studio Guide which contains what I learned in training class with Thomas.
- ▶ Application covers that what is Activity, Fragment, View-Model, Live-Data, Recycler-View, ROOM, Retrofit & API, and Design Pattern(MVI, MVVM, MVP, MVC)
- ▶ Each one has explanation about it and simple sample

Start screen

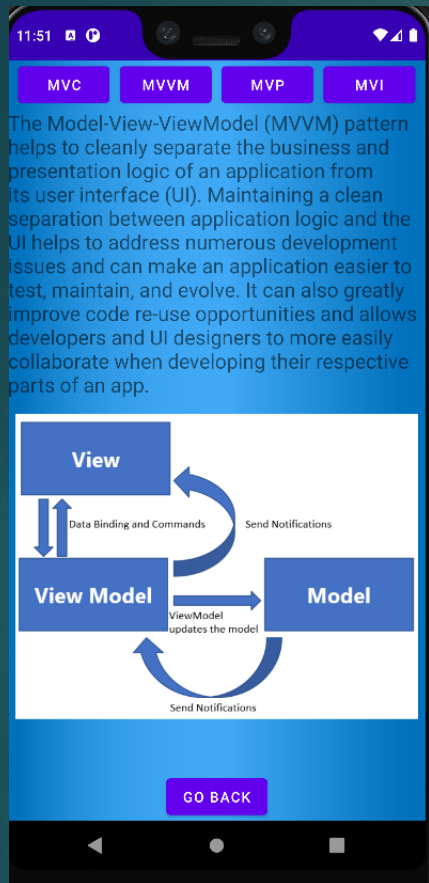

When user starts running Android studio guide Application, this is first screen user see.
Press Start to enter main menu

Main Screen

This is Main menu.
User can choose one of
Android function you want to
see and learn.
